

VALPO SURF PROJECT MATCHING CHALLENGE

On Saturday, March 23, 2024, Valpo Surf Project (VSP) dedicated its HQ in Valparaíso, Chile the French-Alamos Center in honor of Ken French, Rodrigo Alamos, respectively, and their families in recognition of their decade-long commitment to the Valpo Surf Project. The Dedication was part of a larger weekend that showcased the everyday realities our students face living in Valparaíso, Chile, and the importance of the Valpo Surf Project in empowering these kids to create a better future for themselves and their communities.

In a powerful call to action during the Dedication Celebration a generous donor offered VSP an incredible opportunity to transform our organization and impact through a matching donation challenge. The match:

- Will run from March 23, 2024 through March 23, 2025.
- **Any new donations and increased donations made during this period will be matched.**
- **A new donation refers to an individual, foundation, or corporation who has never donated before and this will be their first donation to Valpo Surf Project.** New donations given within the challenge timeframe will be matched in their totality.
- **For individuals, foundations, and corporations who have donated before, the difference between gifts given during March 23, 2023 and March 23, 2024 and gifts given during March 23, 2024 - March 23, 2025 will be matched.** For example, if you gave \$1,000 during the first period and \$3,000 during the current period the \$2,000 difference will be matched.
 - **For those who have donated to VSP before but did not donate during the period of March 23, 2023 - March 23, 2024, donations made during the challenge timeframe will be matched in their totality.**

We are incredibly grateful for this matching challenge and belief in the Valpo Surf Project. Join us in this extraordinary opportunity to create a lasting impact in the lives of kids in Chile and beyond.

If you have any questions about the match, please reach out to Abby at amclagan@valposurfproject.org.
